

VIRTUAL D^eNTAL SOLUTIONS

Your one-stop resource for smart solutions

Office Design

We design spaces where patients like to be, employees like to work and return to day after day! Whether your dental practice needs build-out, remodeling or space planning, we can help. Working closely with the dental and medical supply companies, we help our clients and suppliers make sound decisions. We apply Feng Shui principles, and recommend the use of non-toxic and sustainable methods and materials. We also design custom furniture, cabinetry and original art which enhance the comfort and feel of a dental office.

Creating Optimal and Beautiful Medical and Dental Environments

Medical and Dental Environments that Nourish...

- » Invite abundance
- » Promote health and a sense of well-being
- » Attract harmonious relationships
- » Enable people to grow
- » Breed satisfaction
- » Maximize opportunities

This is what our clients have to say about us:

“Our space is grand, magnificent and stunning. People compliment us all the time for ‘our’ great taste in colors and design. Thank you for giving us this gift.”

Glenn C. Knock, DDS, Falmouth, ME

“We love our new office. Thank you for your help both in the design and decorating as well as keeping me ‘happy and sane’ through such a stressful time.”

Dianne Bridgeman, DDS, Bedford, MA

“We love to come to the office. Everyone working here feels very productive, and... we got sixty fully paid patients after just one month of opening!”

P. Incampo, DMD, PC. Wakefield, MA

“If you want a unique office, Lidia is the one.”

Gil Mattheson, Doyle & Mattheson, Contractors
